

## CONFERENCE IN THE WHITE HOUSE

Distinguished Men of the United States Expected to Be Present.

**ROOSEVELT WILL PRESIDE**  
**CLEVELAND AND BRYAN PERSONALLY INVITED.**

Washington, April 11.—James J. Hill, chairman of the board of directors of the Great Northern railroad, will make one of the leading addresses at the White House conference of governors in May on the conservation of national resources. His subject will be "The Relation Between Rail and Water Transportation."

It is understood Mr. Hill's subject will lead him into a discussion of the competitive relations between the railroad and canals of this country. Mr. Hill is one of five distinguished citizens who have been personally invited to attend the conference.

**President to Speak First.**

The others are Grover Cleveland, William Jennings Bryan, John Mitchell and Andrew Carnegie. These guests, with the president, will be entertained at a dinner on the evening of May 12. The sessions will begin the following morning. The plan is to hold two sessions a day for three days. President Roosevelt will open the conference with an address and he is also expected to preside at each session if not throughout each session. The meetings will be held in the east room of the White House.

**Many Noted Men Expected.**

Indications already point that the room will be crowded. Each governor will be attended by three delegates and some forty great national organizations will be represented. Each governor will be accompanied by the members of the executive committee of the conference and the inland waterways commission have been invited and arrangements will also be made for accommodation of newspaper and magazine writers.

**Non-Partisan Character.**

The importance of the conference and its notable personnel as well as its non-partisan character, is indicated by the fact that it happens that practically all of the Republican and Democratic presidential probabilities are on the invitation list. Taft and Cortelyou will be there in their capacity as cabinet members. Knox and La Follette are invited as senators. Fairbanks and Cannon, however, received invitations because of their position of presiding officers of the two houses of congress.

Hughes will be on hand as the governor of New York. Bryan is one of the five to receive a personal invitation. Johnson has the same standing as Hughes by virtue of being governor of Minnesota. Judge Gray will attend as a delegate from Delaware.

## CHICAGO CRANK MARRIED

Second Venture of Professor O. L. Triggs, Who Has Peculiar Views Regarding the Wedded State.

Chicago, April 11.—O. L. Triggs, who as professor of English literature at the University of Chicago attracted wide notice by proclaiming that John D. Rockefeller is a greater genius than Shakespeare and that Longfellow is overrated, according to information received last night, has been married to Miss Ada Bell Cox of Canton, O. She was a member of a class taught by him at the University of Chicago. Later she engaged in settlement work at Philadelphia and New York. Professor Triggs' collection with the University of Chicago was severed some years ago because of his views. It was testified at a trial in which he was divorced from a former wife that he did not regard marriage as conducive to morals. According to information here, the wedding with Miss Cox was performed yesterday at Turlock, Cal., by Mr. Triggs' father, who is pastor of a Methodist church at Watsonville, Cal.

## OUSTED FROM TENNESSEE.

Supreme Court Hands Down Decision Against Standard Oil.

Nashville, Tenn., April 11.—By the judgment of the supreme court of Tennessee in an opinion delivered today by Justice Neill, the Standard Oil company is ousted from Tennessee for the acts of this company at Gallatin in restraining trade. By the judgment of the supreme court, the Standard Oil company is enjoined from interstate commerce as far as Tennessee is concerned and the court holds in affirming the decision of Chancellor J. W. Stout at Gallatin, in the case of the Standard Oil company that it violated the provisions of section 1 of the acts of 1905, chapter 10, and the punishment imposed in section 2 of that act should be imposed, viz: That the Standard Oil company be and it is hereby enjoined from the right to do business in this state. The counsel for the company have taken an appeal to the supreme court of the United States.

## DIDN'T KNOW

That Coffee Was Causing Her Trouble.

So common is the use of coffee as a beverage, many do not know that it is the cause of many obscure ailments which are often attributed to other things. The easiest way to find out for oneself is to quit the coffee for a while, at least, and note results. A Virginia lady found out in this way, and also learned of a new beverage that is wholesome as well as pleasant to drink. She writes:

"I am 40 years old, and all my life, up to a year and a half ago, I had been a coffee drinker. About ten years ago I had dyspepsia, so bad that often the coffee I drank would sour on my stomach and I could not retain it."

"Severe headaches and heart weakness made me feel sometimes as though I were about to die. After drinking a cup or two of hot coffee, not knowing it was harmful, my heart would go like a clock without a pendulum. At other times it would almost stop, and I was so nervous I did not like to be alone."

"If I took a walk for exercise, as soon as I was out of sight of the house I'd feel as if I was sinking, and this would frighten me terribly. My limbs would utterly refuse to support me, and the pity of it all was, I did not know that coffee was causing the trouble."

"Reading in the papers that many persons were relieved of such ailments by leaving off coffee and drinking Postum, I got my husband to bring home a package. We made it according to directions and I liked the first cup. Its rich, snappy flavor was delicious."

"I have been using Postum about eighteen months and, to my great joy, digestion is good, my nerves and heart are all right; in fact, I am a well woman once more, thanks to Postum."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

## WAR BETWEEN WHITE AND YELLOW RACES HE REGARDS AS INEVITABLE.

War Between White and Yellow Races He Regards as Inevitable.

**ROOSEVELT WILL PRESIDE**  
**CLEVELAND AND BRYAN PERSONALLY INVITED.**

Washington, April 11.—Debate on the naval appropriation bill in the house of representatives today resolved itself in the main to a discussion of the possibility of a war between the United States and Japan.

In line with his well-known views on the subject, Mr. Hobson of Alabama pleaded for four battleships instead of two for the next fiscal year, and pointed out that from now on the United States should have a fixed policy with regard to naval construction. A war between the United States and the white races he regarded as inevitable and he asserted that Japan's present military activity was with a view to the supremacy of the Pacific, and as a natural consequence there would be a clash of arms with the United States. On the other hand, Messrs. Burton of Ohio and W. W. Kilgore of North Carolina disputed that contention, each of them avowing that a clash not only would not come, but that the United States must remain in the forefront of modern civilization as the exponent of peace.

**President to Speak First.**

The others who spoke were: Messrs. Lilley of Connecticut, who criticized the navy department for maintaining several undeclared wars; Gill of Maryland, who denounced the president for his treatment of Rear Admiral Brownson; Dawson of Iowa, who advocated the construction of a general assault; Smith of Texas, who made a general assault on the Republican party; O'Connell of Massachusetts, who declared himself in favor of four battleships, and Ferris of Oklahoma, who condemned the dealing in futures in the bucket shops and elsewhere in the products.

At 5 o'clock the house recessed until 11:30 a. m. Monday.

## ASIATIC FLEET'S SUMMER CRUISE

Admiral Hemphill Will Probably Make His Base in Chefoo Harbor.

Washington, April 11.—The Philippine fleet, technically known as the third squadron of the Pacific, under command of Rear Admiral Hemphill, will leave Manila probably today for its annual summer cruise in Asiatic waters.

Admiral Hemphill is entirely independent of direction from the navy department respecting his movements on this cruise, but it is the impression here that he will make as usual his base at Chefoo in the Yellow Sea. From there it is usual to make practice cruises to various Chinese and Japanese ports and to carry out a regular system of maneuvers. The cruise generally extends over a period of from three to four months. Chefoo is a favored port by the navies of the United States and is generally the rendezvous of the French Asiatic fleet, while Wei Hei Wei has been the summer base for the British squadron.

**Causes Some Satisfaction.**

While it is asserted with positiveness that no directions or suggestions have gone to Admiral Hemphill respecting the Chinese boycott of Japanese goods developing as the result of the Russo Manchurian war, it is evident that of having the American flag float in Chinese waters.

There is an inclination here to minimize the boycott and reports that have reached here are meager, no mail advices having been received. Mr. Rockhill, it is reported, has just completed his annual trip up the Yangtze river, where he made official calls on the viceroys of New Chwang and Hankow provinces. Return calls were received by Mr. Rockhill aboard the American cruiser which conveyed him on the 1,500-mile river trip.

## INSTRUCTION IN MINING

House Committee to Report a Bill Making Appropriation for Schools in West.

(Special to The Herald.)

Washington, D. C., April 11.—The house committee on mines and mining reported favorably the bill made up of bills introduced by Representatives Bonyne, Hagood and Howell to establish schools or departments of instruction in mines and mining. The bill provides that \$10,000 shall be appropriated from the sales of public lands during the coming year to each state and territory for the establishment of instruction in mines and mining and maintenance of schools of mines or departments of mining in schools already established, this appropriation to increase \$5,000 annually until the annual appropriation shall reach \$50,000. The money thus appropriated shall be expended for instruction, research and experiment in relation to mining, engineering, ore treatment, metallurgy and assaying, with a view to teaching the best and safest methods of mining all minerals and especially for the study and preventing of explosions, fires and other dangers incident to work in the mining industry. Advocates of the bill report that it will do for mining what agricultural schools have done for farming and agriculture, and are hopeful of securing its passage.

Senator Smoot will make another effort during the coming week to have the bill providing for enlarged homesteads taken up in the senate and passed. The only member of the senate now opposed to it from the west is Heyburn of Idaho.

## UNANIMOUS FOR BRYAN.

Meeting of Montana Democratic Committee at Helena.

Helena, Mont., April 11.—At the meeting here this afternoon of the Democratic state committee the candidacy of William J. Bryan for the presidency was endorsed without a dissenting voice from the twenty-seven members of the body. Delegates to the national convention at Denver will be chosen at the state convention at Bozeman, June 10, while the second convention for the nomination of state officers will be held at Anaconda, Sept. 8.

## TWO TREATIES SIGNED.

Washington, April 11.—Secretary Root and Ambassador Bryce today signed two treaties negotiated recently between the United States and Great Britain. One provides for a commission to determine the boundary line between the United States and Canada and the other regulates fishing in the Great lakes and contiguous streams. The boundary commission will be charged with the work of resurveying certain sections of boundary line and determine disputed questions in that connection. It is understood that the fishery question also is placed in the hands of commission by the terms of the treaty.

## ADDITION TO GERMAN NAVY

Armored Cruiser Bluecher Is Launched in Presence of Noted Company.

**ROOSEVELT WILL PRESIDE**  
**CLEVELAND AND BRYAN PERSONALLY INVITED.**

Kiel, April 11.—The armored cruiser Bluecher was launched today at the imperial navy yard in the presence of Prince Henry of Prussia and many high officials of the admiralty.

General Baron Von der Goltz, commander of the army corps at Koenigsburg, delivered an address. Countess Bluecher christened the vessel.

Virtually a battleship in all except name, this latest addition to the armored cruisers of the German navy is built entirely of steel, with a displacement of 15,000 tons.

The Scharnhorst, hitherto the largest German armored cruiser, displaces only 11,500 tons.

**Cost of Monster Ship.**

The estimated cost of the construction totals \$8,135,000, of which \$4,625,000 will be spent on the hull and machinery, while her armament will cost \$2,125,000 and her torpedo armament \$135,000.

Her complement will total 700 officers and men, and her speed is 25 knots an hour.

She is to carry ten 12-inch guns, 46 feet in length, throwing a 750-pound missile, besides several transformed 3½-inch quick firing, discharging 100 shells for defense against torpedo attacks. These smaller weapons are to be fitted with an automatic mechanism for selecting attachment by means of which the rate of fire, hitherto about ten shots per minute, is increased to nearly forty shots per minute. In case the attachment gets out of order the gun itself is not affected, and it can still be fired at the former rate of ten shots per minute.

**ISSUED BOGUS CHECKS.**

Divorced Wife of Tobacco Magnate in Jail at Chicago.

Chicago, April 11.—Mrs. Alice Webb-Duke, the divorced wife of Brodie Duke, of the American Tobacco company, who was arrested last night on the charge of issuing forged checks, was today held to await the action of the grand jury in bonds of \$2,000. She was unable to give surety and was sent to the county jail. Mrs. Duke did not deny that the signatures to the checks were her own, but she said that because of sickness she was not responsible for her acts at the time the checks were passed. She also claimed that she was being persecuted by the American Tobacco company. Through her attorney she offered to restore the full amount of the forged checks, which totaled \$5, but the court took no cognizance of the proposition.

## PIMPLES WILL Leave You

In 5 Days You Can Get Rid of All Skin Eruptions by the New Calcium Sulphide Wafers.

**Trial Package to Prove it Sent Free.**

If you are one of the unfortunates who can't get away from your pimples, and you have tried almost everything under heaven to get rid of them, take a few of Stuart's Calcium Wafers every day. Do that steadily for a few days, and in less than a week look at yourself in the mirror.

You will then say that Stuart's Calcium Wafers are a wonder in getting rid of all eruptions.

These wonderful little workers contain the most effective ever discovered, calcium sulphide.

No matter what your trouble is, whether pimples, blackheads, rash, leather, eczema, or scabby crusts, you can depend upon Stuart's Calcium Wafers as never-failing.

Stuart's Calcium Wafers have cured boils in three days and the worst cases of skin diseases in a week. Every particle of impurity is driven out of your system completely, never to return, and it is done without deranging your system in the slightest.

Most treatments for the blood and for skin eruptions are miserably slow in their results, and besides, many of them are poisonous. Stuart's Calcium Wafers contain no poison, or drug of any kind; they are absolutely harmless, and yet do work which cannot fail to surprise you.

Don't go around with a humiliating, disgusting mass of pimples and blackheads on your face. A face covered over with these disgusting things makes people turn away from you, and breeds failure in your life work. Stop it. Read what an Iowa man said when he woke up one morning and found he had a new face:

"By George, I never saw anything like this. There I've been for three years trying to get rid of pimples and blackheads, and guess I used everything under the sun. I used Stuart's Calcium Wafers for just seven days. This morning every blessed pimple is gone and I can't find a blackhead. I could write you a volume of thanks. I am so grateful to you."

Just send your name and address in full today, and we will send you a trial package of Stuart's Calcium Wafers, to test. After you have tried the sample and been convinced that all we say is true, you will go to your nearest druggist and get a 50c box and be cured of your facial trouble. They are in tablet form, and no trouble whatever to take. You go about your work as usual, and there you are—cured and happy.

Send your name and address today and we will at once send you a trial sample package free. Address P. M. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

## Ladies' Vests
